Things are moving along in Upper Department. Last week students started a teacher-led Genius Hour Project. They will work on this project for an hour most Fridays. Todd will be learning how to do animation on PowerPoint, Dorene will be doing a Kindness Project, and Levi will be leading a project on designing the perfect backpack. Ask your child which project they will be working on.

This week students will be meeting with their buddies. Students will find out who their buddies will be on Wednesday. Some students will have two buddies, and it is important that Upper Department students act as role models throughout all the buddy activities.
